SYED ALI HAIDER ABEDI

Software Engineer | Angular & TypeScript

Lahore, Pakistan | +92 336 7048278 | haiderabedi26@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Angular-focused Software Engineer with 4 years of experience building and maintaining enterprise web applications. Strong hands-on experience with Angular, TypeScript, RxJS, NgRx/Signals and real-time UI workflows. At ibex, works on customer-engagement products used by 5,000+ support agents, with additional experience independently delivering production web products.

TECHNICAL SKILLS

Core Frontend: Angular, TypeScript, JavaScript (ES6+), RxJS, NgRx, Signals, SignalR, HTML5, CSS3

Additional Frontend: Next.js, Vue.js, Nuxt.js, Tailwind CSS, Bootstrap, Responsive Design

Testing & Delivery: Jasmine, Karma, Jest, SonarQube, GitLab CI/CD, Git, GitHub, Vercel

Backend: Node.js, Express.js, REST API Integration, Supabase

Tools & Practices: Jira, Postman, Figma, Agile/Scrum, Code Reviews, Mentoring

PROFESSIONAL EXPERIENCE

Analyst Software Engineer | **ibex** | Lahore **May 2023 - Present**

- Build and maintain the Angular frontend of Enteract Engage, an omnichannel workspace used by **5,000+ support agents** to handle Facebook, Instagram, WhatsApp and live voice interactions from one screen.
- Use RxJS and NgRx/Signals for state management and integrated SignalR real-time messaging and voice events so new chats and calls reach agents immediately without manual page refreshes.
- Built KE Listening analytics dashboards that provide K-Electric a consolidated view of customer statistics across millions of customers.
- Secured enterprise interfaces with JWT-based route guards and HTTP interceptors, integrated REST APIs, added Jasmine/Karma tests to GitLab CI/CD, and resolved SonarQube issues during regular Scrum delivery.
- Also delivered Angular interfaces for Enteract.Access, a face-recognition attendance and access-control product, and the Highnoon HRM portal.

Freelance Software Engineer | **Independent** | Remote / Part-time **Aug 2025 - Jan 2026**

- **Raahee.pk** - independently designed and launched a group-tour booking platform for Pakistan with 30 verified tour operators, transparent pricing and live trip tracking using Next.js, TypeScript, Supabase and Resend.
- **TheXperto.com** - built and launched an on-demand home-services product that fulfilled 20+ customer orders, covering the user experience, booking flow, automated emails and deployment.
- Delivered production interfaces for **Intevo Pulse**, including the client app, Ops dashboard and product site, plus the The Intevo company site using Next.js, TypeScript and Vue.js.

Software Engineer Intern | **Voltro by Falkenherz** | Lahore **Oct 2022 - Apr 2023**

- Delivered user-facing booking flows for MICELOC, a worldwide hotel and venue group-booking platform, using Vue 2, Vuex and Vuetify.

- Built a Vue/Laravel integration that automatically converts application exceptions into Jira tickets, reducing manual bug-report creation for the development team.
- Built the responsive JetClass private-jet booking landing page and supported 3-4 junior interns through code reviews and pairing sessions.
